Measures not pictured but also eligible for the program are listed in table below.

Qualified High Efficiency Product	Instant Rebate	Estimated Lifetime Savings <sup>1</sup>	Estimated % Savings <i>Over Std. Efficiency</i>
Gas Conveyor Broiler	\$1,500/unit	\$ 23,660	38%
Gas Fryer Tier 1	\$900/vat	\$ 4,590	34%
Gas Fryer Tier 2	\$900/vat	\$ 6,965	51%
Gas Convection Oven	\$600/cavity	\$ 2,485	34%
Gas Combination Oven	\$1,500–\$3,000/cavity	\$ 13,721	54%
Gas Conveyor Oven	\$1,200/cavity	\$ 5,165	18%
Gas Griddle	\$150/foot	\$ 4,639	30%
Gas Rack Oven	\$1,000/unit	\$ 7,160	18%
Gas Steamer	\$2,000/cavity	\$ 15,484	90%
Gas Underfired Broiler	\$600/foot	\$ 2,668	20%

**Earn Lifetime Savings with High-Efficiency Equipment!**

Major cooking appliances account for almost 35% of the average restaurant's energy expenditures.<sup>2</sup> Efficient equipment can decrease your energy use by as much as 90%.<sup>3</sup>

High-efficiency equipment uses less natural gas and water, so you pay less on your utility bills.

\*Rebate amount varies based on equipment size or efficiency.

1. Lifetime cost savings calculations are based on 365 days/year and 12 hours of usage per day, a gas rate of \$1.02/therm and savings values from the California Electronic Technical Reference Manual (eTRM). Percent savings represent the ratio of the total lifetime cost of a standard-efficiency unit to that of a high-efficiency unit of equivalent size and capacity. Calculations last updated on 08/24/2021. Actual savings may vary.  
 2. Energy consumption for commercial kitchens based on Energy Star study:  
[https://www.energystar.gov/sites/default/files/asset/document/CR%20ES%20Restaurant%20Guide%202015%20v8\\_0.pdf](https://www.energystar.gov/sites/default/files/asset/document/CR%20ES%20Restaurant%20Guide%202015%20v8_0.pdf).  
 3. Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity.

## PROGRAM OVERVIEW

The Instant Rebates! Point-of-Sale Foodservice Program is now available to customers within Southwest Gas® territory in California. The Program offers Instant Rebates for natural gas fryers, ovens, griddles, and more.

## QUALIFYING EQUIPMENT

Many makes and models of natural gas foodservice equipment qualify for rebates up to \$3,000 per unit. Eligible equipment must be installed at an active, valid, non-residential natural gas Southwest Gas service location in California. For a full list of eligible equipment, visit [www.energystar.gov/productfinder](http://www.energystar.gov/productfinder) or view the California Foodservice Instant Rebates qualified product list on [www.caenergywise.com/instant-rebates](http://www.caenergywise.com/instant-rebates).
